Mission Statement

A thriving cooperatively owned business providing organically grown and locally sourced products to our community at a fair price;

A community center that promotes education about sustainability and regenerative agriculture while also cultivating and celebrating healthy relationships with the food we eat, the people who produce it, and the friends and family we share it with;

A co-op that is dedicated to promoting our region's agrarian heritage by bringing local producers and consumers together creating a stronger local food system, increasing environmental sustainability and being equitable to all.
